gives your
business a clear
competitive
edge**

A PORTABLE PLUG & PLAY SOLUTION FOR HEALTHIER INDOOR AIR

Fitness facilities provide space for their clients to achieve optimal health. Our Genano air purifiers take this a step further by helping them maintain their health by providing a microbe free environment.

The large number of people working out in fitness facilities creates harmful air quality by enabling the spread of airborne bacteria and viruses. These contaminants spread quickly in moist, enclosed areas such as gyms, providing prime breeding ground for epidemics such as influenza.

Outcoming ultrapure air is completely free from particles of all sizes, microbes, and harmful gases and chemicals.

**REMOVES DANGEROUS
GASEOUS COMPOUNDS
AND UNPLEASANT
SMELLS**

The purifying unit keeps the air constantly fresh and easy to breathe.

**KILLS AIRBORNE
BACTERIA AND VIRUSES**

The air circulates through the unit, killing all microbes and preventing them from spreading within the premises.

**REMOVES THE SMALLEST,
NANO-SIZED PARTICLES**

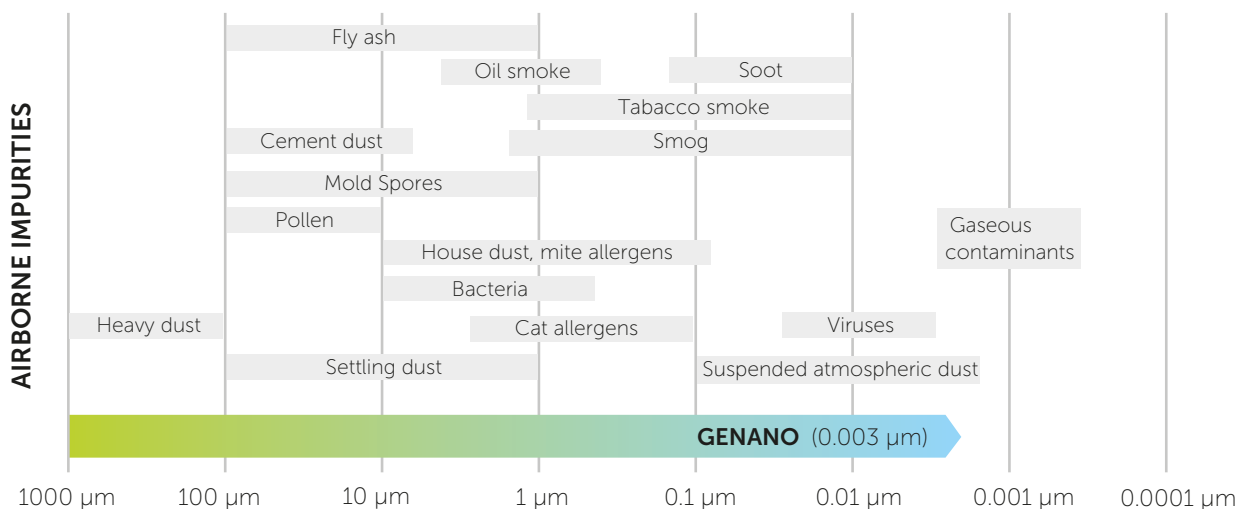

down to 0,3 nm, without fiber filters that get clogged.

PROVIDE CLEANER AND HEALTHIER FITNESS FACILITIES TO YOU CLIENTS

Our patented Genano technology keeps your fitness facility free from odours, airborne bacteria and viruses, thus offering the competitive edge of a healthier workout environment. It is easy to install - just plug and play; our free-standing units are sleek and inconspicuous, and are equipped with wheels for mobility.

Genano® specialises in creating pure indoor air with state-of-the-art technology based on electric filtering that removes the smallest nano-sized particles (down to 0,3 nm). Genano® technology works without worrisome filters that are prone to clogging, thus allowing the purification efficiency to remain high at all times.

Genano technology was originally developed for hospital, clinic and laboratory environments and is now being used in fitness facilities. The patented technology is tested by various independent research institutes worldwide.

Our promise to you, our customer:

Trust

built through our understanding of your activities.

Expertise

based on knowledge of air impurities and effective ways to remove them.

Ease

achieved with our comprehensive service concept.
